Subject Index to Volume 9

Amelanotic malignant melanoma, 51
Atypical thymoma, 241
Axillary sweat gland carcinoma, 51

Bronchopulmonary carcinoid, 331

Common lung tumors, ultrastructural and immunohistochemical features of, 283
Cutaneous T-cell lymphoma, 225

Electron microscopy what izzits, 1
Epithelial neoplasms, human, coexpression of intermediate filaments in, 31
Extraskeletal Ewing's sarcoma, 91

Fibroblasts, tumors of, 175

Gynecologic neoplasms, application of electron microscopy to diagnosis in, 131

Idiopathic fibrosing alveolitis, ultrastructural and immunohistochemical features of, 345
Intracranial metastasis, 169

Kaposi's sarcoma in a male homosexual, 189

Leukemias, ultrastructural diagnosis of, 209
Lung, small cell undifferentiated carcinomas of, with nonneuroendocrine features, 319
Lymphoma:
  evaluation of, immunologic techniques in, 195
  ultrastructural diagnosis of, 209
  malignant, 233

Malignant myoepithelioma of parotid salivary gland, 163
Melanotic schwannoma of spinal nerve origin, 123
Metastatic renal cell carcinoma, 45
Muscle cells, tumors of, 175

Neuroendocrine skin carcinoma, 83
Non-Hodgkin's lymphoma, lymphocyte nuclei in, electron microscopic analysis of, 215

Oat cell carcinoma, 77
Organoid tumor in thyroid gland, 65
Ovary, tubular Krukenberg tumor of, 145

Parotid gland:
  malignant myoepithelioma of, 163
  oat cell carcinoma in, 77
  intracranial metastasis from malignant mixed tumor of, 169
Peripheral nerve sheath tumors, 113
Peripheral neuroblastoma, 59
Peripheral neuroepithelioma, 91
Primitive neuroectodermal tumor, 59

Salivary gland neoplasms, role for electron microscopy in, 151
Sarcomatoid pleural mesothelioma, 337
Small round cell neoplasms, classification of, with electron microscopy and immunohistochemical studies, 99
Soft tissue neoplasms, ultrastructural classification of, 179
Soft tissue sarcoma with neural differentiation, 181
Stromomyoma of the uterus, 137

Thyroid gland:
  mucin-producing tumor in, 277
  organoid tumor in, 65
Thyroid tumors, transmission electron microscopy and immunocytochemistry in the diagnosis of, 255
Tubular Krukenberg tumor of the ovary, 145
Tumorlike conditions, application of electron microscopy to diagnosis in, 131
Tumors of fibroblasts and muscle cells, 175

Undifferentiated retroperitoneal small cell carcinoma, 71
Undifferentiated retroperitoneal tumor, 247
Uterus, stromomyoma of, 137
